

Trendy Tech Tools for Teaching: Resources

Jennifer Tatum | jmtatum@okstate.edu | @hergeekliness

Notes for presentation:

Slide 1 – Introduce the talk

- Purpose: To share a few tools that I've personally used in instruction.
- Will mention similar tools where I can, but I can't vouch for the ones I've not used personally

Slide 2 – Name and Contact Info

- This is me!
- Point out Twitter handle
- Also on handout

Slide 3 – Chrome Remote Desktop

- Most important and game-changing tool
- Describe how it works
- Talk about how I've used this to engage in the classroom more
- Demonstrate (if possible) or show video <https://www.youtube.com/watch?v=AODGu0dHu5I> (around 2 min in)
- Can use your tablet or mobile device using Chrome Remote Desktop app
- Other uses: temporarily remote into a distance learner's computer to guide them through the library website or a database from afar

Slide 4 – Poll Everywhere

- Talk about students being on their phones
- Talk about how I've used this for assessment
- Other uses: Anonymous feedback on the session

Slide 5 – Use Poll Everywhere

Slide 6 – Popplet

- This can feel like a presentation tool, but is much more simple
- Talk about my own popplet, and show to the group
- Other uses: Simple instructional guide (go here, click here, type this, etc)

Slide 7 – Presentation tools

- Death to Powerpoint!
- Sometimes you HAVE to use a presentation tool
- Prezi can be downloaded if you worry about internet connectivity
- Venngage can help create infographics
- Other uses: infographics are great for social media!

Slide 8 – Videos

- Great for social media, breaking up a long presentation
- Many video makers make it simple to construct the video
- Other uses: Create online tutorials on how to use services

Slide 9 – Transport Them

- If you need a video of someone presenting, being a character is fun!
- My tools are iPad/Apple specific, but there are other apps that are similar on Android
